ROTO

Productive and Versatile 2/3-Axis Laser Machine

Benefits at a Glance

2/3-Axis marking, engraving laser system.

Track and trace ready.

Integrated optical inspection system.

Semi-automatic with high productivity.

High precision & selectable multistation functionality.

Track & Trace Ready*

Indexer

3-Axis Step Marking/Engraving

3-Axis Marking/Engraving

3-Axis Annealing

Vision Inspection System*

European components selected carefully

2/3-Axis Laser Marking & Engraving

Annealing / Colored Marking on 3D Surface

Medical Part UDI marking, Corrosion & Passivation Resistant High Contrast black Annealing

2D DPM & Step Marking on Electrical MCB

Cutting & Marking on Special Adhesive TESA & 3M Tapes

DPM Of Data Matrix Code On Automotive Gear Assembly Part

Step Marking on Switch

Technical Specifications	ML ROTO S	ML ROTO M	ML ROTO L
Enclosure Safety	Class I / Class IV	Class I / Class IV	Class I / Class IV
Base Diameter	550 mm	750 mm	950 mm
Station selection	2/4 (selectable mode)	2/4	2/4
Max. Work Piece Weight	5 kg	10 kg	15 kg
Max. Work Piece Size (W/D/H)	100 x 100 x 100 mm	200 x 200 x 150 mm	250 x 250 x 200 mm
Compatible Laser Types	Fibre, UV, CO2, Green	Fibre, UV, CO2, Green	Fibre, UV, CO2, Green
Options			
Code Reader Integrated Laser Marking Head	■	■	■
Dual Laser Heads (2 Station Mode)	□	■	■
Auto Loading	□	■	■
Auto Unloading	□	■	■
Max. Marking Area	110 x 110 mm	150 x 150 mm	225 x 225 mm
Pre-inspection vision system (OCR, Dents, positioning, other defects*)	■	■	■
